## Technical support:

NBR requires both FOH and monitor technicians to support the band.

Before start of the show, an intro tune is played. We'll provide this either in wav or mp3 format; please provide equipment to play this intro tune

## Stage overview:

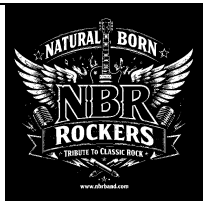

Please note that our drummer is left-handed with a left-handed kit, so sharing the drumkit is not feasible. Therefore, local stagehands are required for swift change over and getting equipment to and from the stage.
